

First partial written examination: two tests

1. Quick questions: three theoretical questions about the content of the course done so far
 - Three minutes to answer to all – if you know the answers, the time is enough, trust me
 - Suggestion: dedicate one minute for each question, so as to have the time to answer all
2. Understanding and development: two practical questions where I ask you to tell me how an algorithm works and to develop a Python function
 - Twenty minutes to answer to all
 - Suggestion: dedicate ten minutes for each question

Binary scoring: 1 is assigned for each correct answer, 0 otherwise

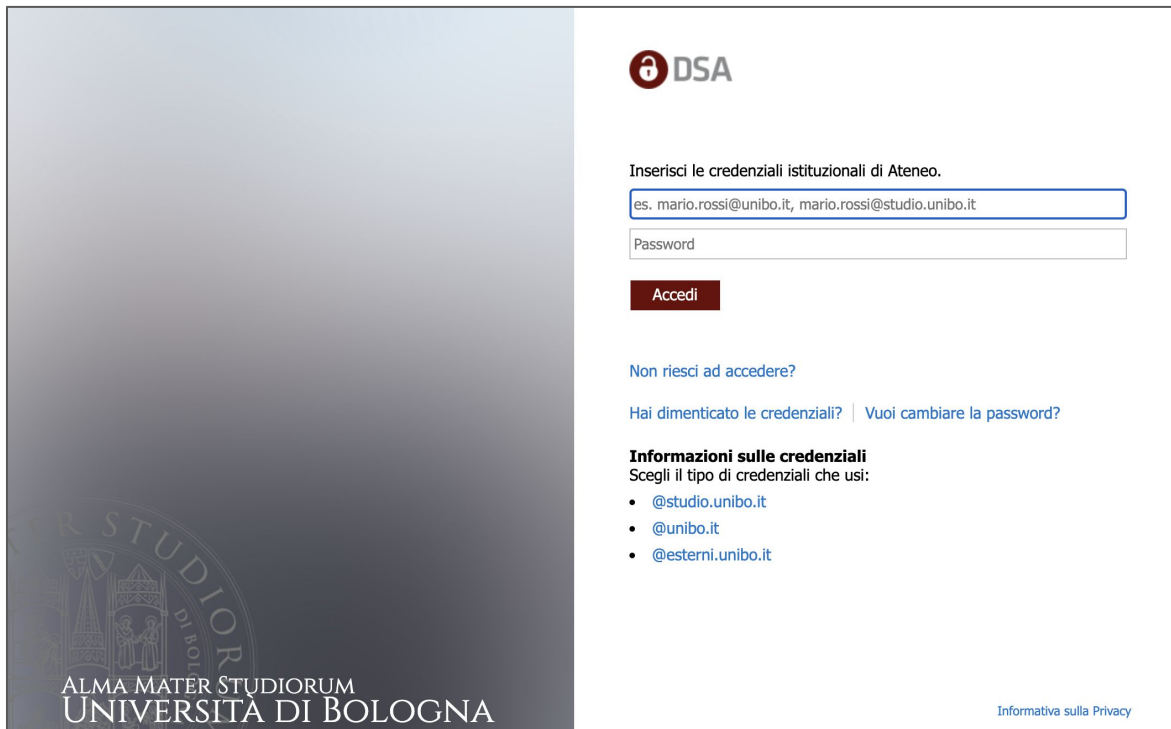

Remember: you cannot access the same test from different devices/browsers – choose one and stick with it!
